Ver.2.02

Dear customer,
thank you for purchasing our product.

Before installing the software, it is highly recommended to check the minimum requirements of the PC, this allows a correct and quick installation.

- Dual-Core Processor (Physical cores) (Intel processors since 6th gen /AMD Ryzen series)
- Minimum screen resolution: 1366x768
- Maximum screen resolution: Full HD 1920 x 1080
- 1 USB port
- Fast Internet connection
- Windows 10/11 (32-64 bit)

Mac, Linux and Virtual Machines (to emulate Windows systems such as VMware, Oracle VM VirtualBox, Parallel etc.) are NOT supported.

Before starting the installation, it is essential that the operating system in use is up to date and that there are no updates in progress or waiting to be executed.

At the end of the installation procedure, you may need to restart your computer.

Once installed:

- Connect the purchased device via USB to the PC
- Make sure the PC is connected to Internet
- Run the previously installed software
- Perform all the required updates

The system is active at the next start.

For any further questions or requests, you can contact your dealer.
